

Input Tested	Input Given	Result
Enter Name	Return only	Player name is set as "No Name"
	Very long name entered	Your name is far too long! It needs to be less than 80 characters long.
Take on case (y/n)	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	N with whitespace	Accepted as n
	Y with whitespace	Accepted as y
Main action options	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	M with whitespace	Accepted as m
	N with whitespace	Accepted as n
	S with whitespace	Accepted as s
	m	Calls map
	n	Calls notebook
	s	Calls suspect list
Map options	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	V with whitespace	Accepted as v
	W with whitespace	Accepted as w
	R with whitespace	Accepted as r
	v	Asks for input: number of location to visit
	w	Asks for input: number of location to search
	r	Calls Main Actions
Visit: choose number	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	9	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	1 with whitespace	Accepted as 1
	1	Calls location
Warrant: choose number	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	9	User informed that input does not match requirement, requirements made clear, opportunity to try again

	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	1 with whitespace	Calls location
Warrant: confirm	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	9	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	Y	Calls search
	N	Calls Main Actions
Crime_scene: ask for explanation (y/n)	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	N with whitespace	Calls game over
	Y with whitespace	Calls timeline of events
Play again (y/n)	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	N with whitespace	Accepted as n
	Y with whitespace	Accepted as Y
	n	Ends game
	y	Runs a new game
Un-connected location: all options	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	C with whitespace	Accepted as c
	c	Calls view cctv
	S with whitespace	Accepted as s
	s	calls look around
	T with whitespace	Accepted as t
	t	Calls talk to witness
	R with whitespace	Accepted as r
	r	Calls main action options
Un-connected location: option c complete	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again

	C with whitespace	User informed that input does not match requirement, requirements made clear, opportunity to try again
	c	User informed that input does not match requirement, requirements made clear, opportunity to try again
	S with whitespace	Accepted as s
	s	Calls look around
	T with whitespace	Accepted as t
	t	Calls talk to witness
	R with whitespace	Accepted as r
	r	Calls main action options
Un-connected location: option s complete	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	C with whitespace	Accepted as c
	c	Calls check cctv
	S with whitespace	User informed that input does not match requirement, requirements made clear, opportunity to try again
	s	User informed that input does not match requirement, requirements made clear, opportunity to try again
	T with whitespace	Accepted as t
	t	Calls talk to witness
Un-connected location: option t complete	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	C with whitespace	Accepted as c
	c	Calls check cctv
	S with whitespace	Accepted as s
	s	Calls look around
	T with whitespace	User informed that input does not match requirement, requirements made clear, opportunity to try again
	t	User informed that input does not match requirement, requirements made clear, opportunity to try again
Un-connected location: option c + s complete	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	C with whitespace	User informed that input does not match requirement, requirements made clear, opportunity to try again
	c	User informed that input does not match requirement, requirements made clear, opportunity to try again
	S with whitespace	User informed that input does not match requirement, requirements made clear, opportunity to try again
	s	User informed that input does not match requirement, requirements made clear, opportunity to try again

	T with whitespace	Accepted as t
	t	Calls talk to witness
	R with whitespace	Accepted as r
	r	Calls main action options
Un-connected location: option t + c comp	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	C with whitespace	User informed that input does not match requirement, requirements made clear, opportunity to try again
	c	User informed that input does not match requirement, requirements made clear, opportunity to try again
	S with whitespace	Accepted as s
	s	Calls look around
	T with whitespace	User informed that input does not match requirement, requirements made clear, opportunity to try again
	t	User informed that input does not match requirement, requirements made clear, opportunity to try again
Un-connected location: option t + s comp	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
	C with whitespace	Accepted as c
	c	Calls view cctv
	S with whitespace	User informed that input does not match requirement, requirements made clear, opportunity to try again
	s	User informed that input does not match requirement, requirements made clear, opportunity to try again
	T with whitespace	User informed that input does not match requirement, requirements made clear, opportunity to try again
	t	User informed that input does not match requirement, requirements made clear, opportunity to try again
Crime_scene location: all options	Return only	User informed that input does not match requirement, requirements made clear, opportunity to try again
	3	User informed that input does not match requirement, requirements made clear, opportunity to try again
	f	User informed that input does not match requirement, requirements made clear, opportunity to try again
